## Monitoring Solutions

Remote Measurements | Critical Control Points | Real Time Notifications | Global Access

**Xemote™** is an economical generic cloud based remote monitoring system, providing real-time notifications and historical data analysis. This improves process control and risk management of various critical application areas.

### We are not just another remote monitoring system.

One product solution - many sensor possibilities/capabilities.

What makes **Xemote™** different?

- Applicable to many industry sensors
- One product - many sensor applications
- Quick and simple installation
- Low cost wireless solution
- Low cost of ownership
- Low running cost

### Value drivers

- Monitor production critical control points with advanced notifications
- Prevent perishable food loss
- Reduce maintenance & service costs
- Advanced management operational analytics with dashboards
- Integrates with erp

**Xemote™** is a product of Xpitech (Pty) Ltd.
